The longevity of David Schultz's career is astounding as he has been a threat on the competitive scene for the past thirty years. His quiet and calm demeanor is refreshing to his playing partners and teammates and has surely

been an important asset that has lead him to capture many city, provincial and national titles as an individual and team member. Beyond his playing career David has also taken the time to give back to his home club by assisting other competitors in understanding how to best play the game and also supporting the grounds committee with discussions around improvements to the course.
